SALES PITCH:

Without a doubt...

Video is the #1 Way to Captivate Your Audience and Sell Anything Online!

You may already know that VIDEO has UNLIMITED MARKETING potential!

Since humans are wired visually, we find videos more engaging, more memorable, and more popular than any other type of content out there.

As a matter of fact, Cisco projected that videos will make up MORE THAN 82% of all consumer Internet traffic in 2022 – that's 15X higher than it was in 2017.

So it's pretty obvious that videos are essential to your business, and to the business of anyone who wants the attention of their audience.

Of course, it's no secret. Most marketers are well aware of this fact, which is why videos are only rising in popularity.

Yes, there is now a lot of competition... so you have a choice: ride the wave or get pummeled by it!

If you're not producing videos for business, you can bet that your competition is happily capturing the attention of your market.

However The Problem Is...

Filming Your Own Video Footage Is Definitely Not Easy...

Option #1 - Film Your Own Footage

Yeah, sure... you could spend a minimum \$5000 on a professional video camera, but even then you could spend days, possibly even weeks trying to learn how to navigate the camera interface and master it.

That's not even including the time you'll need to actually plan and film your shots.

Hiring a so-called professional videographer is also a no-go zone. They charge hundreds of dollars per hour of filming.

We're talking about hundreds to THOUSANDS of dollars... and THEN the real pain starts when you have to go back and request changes. You can end up going back and forth for days or weeks trying to get the video you envisioned, leaving you mentally and financially drained. Ouch! Let's move on to the next option...

Finding Good Quality Stock Footage Online Is Possible..

Option #2 - Buy From Popular Sites

It's less time consuming than filming your own footage.

But as you probably know it's far more expensive...

It's no secret that large stock agencies charge a premium for their stock footage.

Sites like Shutterstock charge \$79 for a single video clip.

The cost of stock footage even for just one project can add up real fast.

So... you KNOW you need high-quality videos to capture attention, gain trust, and boost conversions...

BUT... videos are often too complicated to create on your own, and too expensive to buy!

So what's the solution?

We've spent the last four years working directly with a team of experienced videographers and experts to create the ultimate video elements library...

INTRODUCTION:

Introducing
The Stock Footage Club

The Ultimate Searchable and Browsable Online Library With 80,000+ Premium Video Elements

Complete Online Library

The Stock Footage Club is the ultimate online library where you can easily search, browse, filter and access over 80,000+ stock footage videos and other various video elements.

Organized Library

Our entire library has been distributed into over 500+ organized categories so you can locate and easily find what you need within a blink of time.

Works With Top Software

All files are delivered in standard versatile video file formats making sure that you can seamlessly import them into your favorite video creation software.

Filtering Options

Our library has inbuilt advanced filtering options, so you easily pinpoint and narrow down search and category results. You can easily filter by file category, file type, definition, and loads more with our intuitive filtering options.

Fresh New Updates

Once you join The Stock Footage Club, you will receive brand new exclusive mesmerizing video elements in a wide range of diverse niches automatically delivered inside the members portal

every single week. Never be limited to using the same old 'me-too' assets, Stock Footage Club members will always be on the leading edge of video marketing.

Very Affordable

Premium stock videos and elements in today's market can easily cost over \$100 for just a single file. The Stock Footage Club gives you unlimited access and downloads to tens of thousands of video elements for a low affordable investment.

Commercial License

All elements inside The Stock Footage Club are suitable to be used in commercial and client-based projects. Create and sell video creation services to your clients and charge extra by using our premium video elements.

Attribution Free

Every video inside The Stock Footage Club library is copyright free licensed for commercial use, without the need to credit us or our videographers. Never worry about crediting the creator which devalues your brand and message.

Previewing Is A Breeze

The Stock Footage Club is fully previewable allowing you to preview all video elements on the spot without the need to download the file first. You can effortlessly tell if the product is a good fit for your project or not in just a jiffy.

Access Anytime

At any moment you can log into The Stock Footage Club from any device and browse through our elegant library of stunning video elements sorted into a range of diverse niches, click the download button, and be ready to create draw-dropping videos using our professional video elements in mere minutes.

Premium Assets

Unlike other platforms that embed free sites API's, which is against their terms of use, all contents inside The Stock Footage Club are premium and sell on sites such as Shutterstock for upwards of \$249 for a single clip. You need premium elements not rebranded versions of free sites.

Well Maintained Product

We are not here for the short game. We've released hundreds of website updates and library updates. Our users have downloaded over 500,000+ video elements from our library. Your customers will be in safe hands when you decide to invest in The Stock Footage Club.

COMPARE TO ALTERNATIVES:

Finally Forget Paying \$100 For A Single Stock Video... Today You Get Them For Less Than \$0.0003 Each!

Most royalty free video sites restrict your usage to personal use only and you will need to pay quite a fortune for an extended license so you can use the video for your client's project.

But today, we are giving you a chance to get access to 70,000+ high quality stock videos and video elements categorized in 500+ categories and subcategories for you to use as you like, as much as you like, wherever you like for an atomic fraction of the cost!

How Does The Stock Footage Club Compare?

Forget the price tag you get charged at the usual websites for regular stock videos.

The Stock Footage Club contains unique, beautiful videos that won't break the bank.

iStock - Charges Anywhere From \$90 to \$99 Per Month or \$180 Per Video!

Shutterstock - Charges Anywhere From \$29 to \$199 Per Month or \$200 Per Video!

123RF - Charges Anywhere From \$59 to \$159 Per Month or \$100 Per Video!

WHO IS IT FOR:

From video editors and video marketers through to YouTube vloggers, The Stock Footage Club has something for everyone.

This is a library of video elements that you will be using on your projects for the foreseeable future...

We're Working Behind The Scenes On Dozens Of New Modules!

The Stock Footage Club - Here Now And In The Future

We originally released the first version of The Stock Footage Club In 2017 with only 500 stock videos.

We're 100% committed to continuously supporting, updating and improving The Stock Footage Club behind the scenes with brand new content every single week.

As a founder member you will receive all of our future updates completely free of charge.

And don't forget, you'll get detailed training videos and 24-7 customer support if you ever have a question or issue.

FREQUENTLY ASKED QUESTIONS:

Is The Stock Footage Club A Onetime Payment?

Yes!

Unlike traditional stock footage sites that charge on a per-video basis or offer expensive auto-renewing memberships, The Stock Footage Club is a one-time single payment. You pay once for unlimited access to our complete library.

How Many Files Can I Download Per Day?

You can download unlimited files per day.

Please note: You can not use any manual or automated software, devices or other processes to download files from our website. This includes spiders, robots, scrapers, crawlers, etc. Our system will restrict your account if you abuse our website.

How Often Are You Updating The Library?

We will be regularly updating our library with new stock video footage and other various video elements. As a founding member, you will receive access to all future files for free.

Can I Download Files From All Categories?

Yes! You will receive unlimited access and downloads to our whole library including all future updates. (Only available to commercial license owners only)

Do You Offer A Free Trial?

Since Stock Footage Club is a one-time payment with unlimited downloads we do not offer a free trial. Free trials are usually available for recurring memberships. You can browse through our entire library here without any purchase.

Does It Work Offline?

To access the main Stock Footage Club membership library, you will be required to be connected to the internet to browse our library.

Once you have downloaded the stock footage to your computer's hard-drive, you will be able to use the video file without a connection to the internet.

Does It Work On iPad And Mobile?

Yes, with our latest website interface update, it is fully compatible on tablets and mobile devices. You will be able to browse the library, download files and then import these files into your favourite video editing apps.

What Video Resolution Do You Provide?

All of our video elements are delivered in HD resolution.

A very large majority of the video elements and stock videos are delivered in 1080p. (1920 pixels x 1080 pixels)

Some of our newer stock footage videos and video elements are delivered in 4k resolution.

All video clips can be scaled and resized in a majority of top video editing applications or using free online software.

What File Types Do You Provide?

All video elements and stock videos are formatted in standard video formats that are importable in 99% of video editing applications and software.

Around half of our stock footage videos are formatted in MP4 format. The other half of stock videos are formatted in MOV format.

The Motion Backgrounds and Special Effects libraries are delivered in MP4 format.

Our other video elements come in multiple versatile file formats such as:

MOV
MP4
SWF
FLV
GIF
PNG

If your software application does not support these standard formats you can use a free online video converting the app to convert the file to the format of your choice.

What Are The File Sizes Of Your Elements?

A majority of our video elements are under 100 megabytes in size.

We have the option for you to filter by file-size while browsing our library.

The file size is dependant on the individual video element.

Are The Elements Compatible Inside My Software?

A majority of video editors and creation tools will support our video elements and stock footage videos.

Our stock videos are formatted in standard .mp4 and .mov video formats.

Please refer to your software's user manual to confirm if they support importing these file formats.

To remove the background from our green screen elements your editor must support chroma key background removal.

Please note that The Stock Footage Club does not provide a video creator/editor – we offer a library of video elements that you can use in conjunction with your favorite video editing software.

Do The Videos Have Background Audio?

No. A majority of our stock videos do not have background sounds. If they do, we will usually mute them as they are mostly distorted and low quality.

You can use our professionally recorded sound effects from the Sound Effects Club included in your purchase to spice up your stock videos.

(Example: Use the wave sound effect on top of a stock video of a beach with waves)

Can I Preview The Library Before I Purchase?

You can preview our library before purchasing by here:

<https://www.thestockfootageclub.com/>

While previewing the library you will not be able to download any files. Once you purchase the founder's special you will receive login details to log in and download files from the library.

What Does Your License Allow?

Our license allows you to use our stock video footage and other video elements inside your own personal and commercial projects and also projects that you are working on for your client/s.

Our only restriction is that you cannot redistribute or resell the videos as stock footage videos in any way.

You can use these videos in your own work and you include these videos into a bigger project for clients. A couple of examples include a video carousel on a webpage or a sales video for a client. Another example would be if you created video intros or outros using our backgrounds – you would be able to sell those.

By purchasing and access the service you must agree to or license terms

You can read the full license details here.

<https://www.thestockfootageclub.com/license/>

Can I Use A Video In Different Media Formats?

Yes, you can use the videos in any media format ... websites, videos, webinars, live-streaming videos, social media sites, Facebook, Twitter, Instagram, on Powerpoint and Keynote presentation slides, etc.

You can use each video as many times as you wish and in as many formats as you wish ... without additional charge.

If you are unsure about any proposed usage, please contact our helpdesk and we will clarify the situation.

Can I Use Your Elements In My Client's Projects?

Yes, the license agreement provides commercial usage which allows you to use the videos in works that you create for clients.

If you are unsure about any proposed usage, please contact our helpdesk, and we will clarify the situation.

Do I Have To Attribute When I Use Your Footage?

All our videos are provided on a non-attribution basis, so there is no necessity to link back to our site.
