

General Terms

Items purchased under the Standard License may be used to create End Products for Sale where lifetime sales of the End Product for Sale do not exceed 500 units. Items purchased under the Extended License may be used to create End Products for Sale that may be sold an unlimited number of times.

Licensing	Standard License	Extended License
Commercial Use	1 Project *	1 Project *
End Product for Sale	1 Project, up to 500 sales *	1 Project, unlimited sales *

Rights

All resources included in this bundle are royalty-free for use in personal and commercial projects. You can download and modify these resources to use in your web design, UI/UX, or graphic design projects for personal, non-profitable, and commercial use, where End Products are intended to be sold online or offline on marketplaces, stocks, etc. Any End Product for commercial use must be significantly different than the original Resource.

Prohibitions

You cannot redistribute, resell, lease, license, sub-license, or offer our resources to any third party. This includes uploading our resources to other sites or media-sharing services and offering our resources as a separate attachment from any of your work.

***What projects are covered by a commercial license?**

All projects that imply single-time profit are covered by a commercial license. It can be branding, advertising, identity concepts, packaging, logo design, merchandise (not for sale), home decor, charity projects, and more.

Goods for sale are covered as well, but if you sell more than 500 copies of the End Product for Sale, you need to acquire an extended licensing for unlimited sales.

If you have a different project and can't understand if it's covered by a commercial license or not, drop us a message at info@pixelbuddha.net, and we'll help you!

***What does 1 project for premium resources stand for?**

If made for sale, this is a single design for a t-shirt, tote bag, mug, etc. — i.e., if you want to use the purchased product for another design, you should purchase another license.

Alternatively, a single branding or packaging project, logo design for a client, advertising templates for a single campaign are considered 1 project.
