

Licensing Agreement

Standard Commercial License (Single User)

for 1500 UI Elements, Components and Cards Bundle

General Discussion

In general you are allowed to do anything commercial, use any of our products to produce client work, create unlimited number of personal projects such as websites and apps. All of this as long as you're not selling our templates as yours or presenting slightly changed designs on social media (such as Dribbble, Behance, Instagram etc.). If you'll be ever interested in creating something with our designs for stores such as CreativeMarket or ThemeForest contact us for a an exclusive license.

By purchasing any of our products ("item" or "file") you are being granted a license to use these files for specific uses under certain conditions.

This license grants the user an ongoing, non-exclusive, worldwide license to utilize the digital work ("Item").

You are licensed to use any purchased Item to create unlimited End Products for yourself or for your clients and the End Product may be sold, licensed, sub-licensed or freely distributed.

An end product is one of the following

For an Item that is a template, the End Product is a customised implementation of the Item. For example, the item is package of UI elements and the End Product is your unique finished web app design or iOS app.

You are allowed to

You may create an End Product for a client.

You may create an End Product for for personal or commercial use.

You may sell, license, sub-license or distributed and make any number of copies of the End Product.

You may modify or manipulate the Item. You may combine the Item with other works and make a derivative work from it.

The resulting works are subject to the terms of this license. This is a 'multi-use' license, which means you may use an Item multiple times, in multiple projects.

As this is a „Single User License“ you are only allowed to use the product or item as individual person.

You are allowed to use the End Product in one commercial social media account only.

You're not allowed to

You can't place any of our design files into the End Product as it is.

You are not allowed to work in teams or with third persons / parties on editing the product.

You can't re-distribute the Item as stock, in a tool or template, or with source files.

You can't do this with an Item either on its own or bundled with other items, and even if you modify the Item.

You can't re-distribute or make available the Item as-is or with superficial modifications.

You must not permit an end user of the End Product to extract the Item and use it separately from the End Product.

Other licence terms

You are not required to attribute or link to the item or product in any of projects. Any of our products will not be responsible for any outcome that may occur during the course of usage of any of our resources.

Personal Support & Partnership

If you have question or you're still unclear about what is or isn't allowed under the License, please respect the creator and contact us at kl-webmedia@web.de.
